WOMAN MURDERED.

Found in a Wood-Box with a Frightful Gash in Hor Throat.

Ragpicker Vincenzo Arrested for the Crime.

John Fralate's Herrible Discovery in the Cellar of \$1 Mulberry Street This Morning-The Murdered Woman and Vincenzo Seen Quarrelling in the Yard of the House Last Night - Shoved Into the Wood-Box Hend First.

Johan Fralato, of 81 Mulberry street, went to the cellar for a scuttle of coal at 7 o'clock this morning. At the front end of the cellar there is a small iron grating which lets in a ray of light.

When Fralato got to his wood-box he found that the door of the wood-box next to his was open. He tried to close the door, but found it impossible.

On investigation he found the body of a woman lying crosswise, her feet protruding from the door, and her head on what ap-

peared to be a carpet-bag.

He went upstairs and informed the landiord, Vincenzo Daneto, of what he saw. The landlord called in a policeman, who looked at the body, and reported the case to

the Elizabeth street station. Policeman Bernard McMahon was placed on guard, and at 7.39 o'clock the Coroners' office was notified.

An Evening World reporter accompanied Dr. William A. Conway, Coroner Messemer's assistant, to the house at noon. The policeman, carrying a piece of candle, went down the narrow, rickety stairway, the Evening WORLD man next, with Dr. Conway in the rear of the procession.

rear of the procession.

The policeman led the way along the hall of the cellar to the front wood-hole. On opening the door the form of a woman, apparently thirty-five years of age, was found on her right side lengthwise of the box, with her head held up by a carpet-bag supported by a pile of waste paper.

Her features were terribly emaciated. The body was dressed in a black dress and sack. She wore brown stockings and button shoes. The left hand hung over across the body. The right hand, which was doubled up under the body was found to contain a few pieces of silver and pennies.

the body was found to contain a few pieces of silver and pennies.

At the first glance it was thought that the woman had wandered into the place and had been taken with a hemorrhage. Dr. Conway, assisted by the policeman and The Evening World man, turned the body over. The cloak, which was doubled around the woman's neck, was pulled aside.

A horrible sight presented itself. There was a long clean cut clear across the neck, which appeared to have been caused by a slash with a stiletto. The jugular vein and cartied artery was severed. By this time the proprietor of the

The jugular vein and cartied artery was severed. By this time the proprietor of the saloon came down stairs. The reporter questioned him closely, and with great difficulty, owing to the man's limited knowledge of the English language, succeeded in getting the following story from him.

Last night about 11.30 o'clock the house keeper, Canio Calusio, went into the back yard for some water. There she saw the dead woman talking to one of the tenants of the third floor known as "Vincenzo." She spoke to the man, and he said: "Go 'way, or I'll do the same to you." She threatened to call the landlord, and the man said: "Oh, go away!"

go away!"
She returned to her rooms and went to

bed.

As soon as Dr. Conway completed his examination he went to the Elizabeth street police station. In the meantime the fact that the case was a murder was reported, and officers were sent to look for Vincenzo. The Morgue was hotified to remove the body.

According to the salcon-keeper, Vincenzo has occupied room 19, at the back of the third floor, for about a year. He left the house this morning saying that he was going to pick rags.

to pick rags.

Vincenze was arrested by Detective Christie early this afternoon. Detectives are said to be on the track of two other men who are supposed to be implicated in the murder.

Early this afternoon the dead woman was identified as Tillie Smith, a well-known character.

A WEALTHY MAN'S SUICIDE.

ROBERT T. ARNOLD BLOWS OUT HIS BRAINS WHILE TEMPORARILY INSANE.

Ending His Life in His Happy Home at Summit, N. J., While Crased with Nonraigic Pains—His Rash Act Apparently the Result of a Sudden Resolve—His Beautiful Wife Prestrated with Grief.

SUMMIT, N. J., May 19.—Robert Townsend Arnold, one of the most prominent residents of Summit, who is believed to have speculated largely in coffee in New York, committed suicide late last night by shooting himself in the head.

He returned from New York at 4.30 P. M. yesterday, seemingly in the best of spirits. About 9, 80 he went to the stable to give orders to his coachman to have the carriage ready for an ear y train this morning, intend ing to go to New York on business.

He sat and talked to the coschman for half an hour and then returned to the house. He retired to bed about 10.45.

Fifteen minutes later he asked his wife to get a lamp and light it. While she was absent he took a revolver from his bureaudrawer, and, placing it close to his right temple, blew his brains out.

The revolver was a 42-calibre one, which he kept on hand to guard against tramps. The bullet entered the right temple, pass. ing completely through the brain and lodging under the skin of the left temple. Death

ing under the skin of the left temple. Death ensued instantly.

Mr. Arnold recently bought a beautiful brown stone house on the Boulevard, adjoining the house of G. W. Dillingham, a New York publisher. It was in a prominent situation on very high ground, which gave a very commanding view of the surrounding country. He paid over \$25,000 for it.

Mr. Arnold was a son of C. T. Arnold, of Townsend, Arnold & Co., and a brother of Dr. Glover C. Arnold, a well-known New York physician. He came from Charleston. S. C., with his father in 1859. He was of good family, and he inherited an ample fortune from his mother, Mary Selina Arnold.

He married very happily about ten years ago. His wife, a daughter of the late Gen. Butterfield and a very beautiful woman, brought him another fortune of more than \$100,000.

In Mrs. Arnold's will was a very peculiar provision that her bequest to Robert Town-send Arnold should not take full effect un-less and until he attained the age of 35 years. His thirty-fifth birthday occurred only a few

weeks ago.
Although engaged in speculations in New York Mr. Arnold had no office in the city and only went there two or three times a

and only went there two or three times a week.

He lived in style here, spending most of his time in beautifying and enlarging his house and grounds. He gave frequent enter-tainments until a few months ago, when he had a severs attack of pneumona. More recently he was a great sufferer from neuralgia.

Mr. Arnold was so wealthy that money troubles can hardly be alleged as a motive for his act. It is thought that he committed suicide in a fit of temporary insanity, brought on by acute neuralgie pains in the head.

Mr. Arnold left no children, He was a prominent Mason, and recently he organized a lodge in Summit. Mrs. Arnold is half-crazed with grief.

Edwin T. Bartlett, of 48 Wall street, Mr. Arnold's counsel, said that his client was in the city yesterday and that he complained of severe pains in the head. Mr. Arnold had no troublesome litigation on hand, and he did not believe that he was at all embarrassed

by speculations.
Dr. Glover C. Arhold of 115 East Thirtieth street, received word of his brother's death early this morning. He immediately went to Summit to make arrangements for the fu-

Board of Education, was asked this morning if he had anything to say in regard to Commissioner Sprague's criticism of the committee appointed to investigate the charges of incompetency against Supt. Jasper.

"I think Mr. Sprague's position is untenable," he replied. "There is no rule which requires the appointment of a committee the majority of which is in favor of or opposed to measures on which they are to act, and, besides I the vote on the question of investigation, which, he claims, was a test, was, in fact, no criterion. Mr. Jasper's supporters might have cour ed investigation and his opponents opposed it for aught the Commissioner or I knew.

"I appointed the men on that committee because they are strong and representative men-above suspicion; men who would be fair and would vote against their feelings and desires if the evidence warrauted it.

"While I am in favor of Mr. Jasper's retention now, yet, should he be proved incompetent through this investigation, I shall be among his strongest opponents."

The dry dock and the Cob Dock destroyed by fire; inflammable material about in abunoance; hundreds of pounds of powder gone in blue, disagreeable, odorous smoke; a magazine filled with caus of dynamite near by; were some of the visions which, it is presumed, fitted through his mind.

Sentry Shanahan heard the bells of the City of Churches toll the hour of 10 o'clock as he paced his post, and he thought the unusual clangor meant fire. As there was enough powdered dynamite in his immediate neighborhood to blow him into ingdom come, he didn't stop to investigate, but pulled the buttons in the sentry house.

One of them is connected with the Navy-Yard Fire Department of 100 marines at the other end of the yard and with the Cob Dock, and the other sounds an alarm in the houses of the engine companies and one truck company of the Brooklyn Department. In less time than it takes to tell it, the four city companies were batterin? the eastern ga e and demanding admission into the Navy-Yard. The officers in charge of the saluting howitzer of the Vermont, placed for convenience on the Cob Dock, fired a shot in the air, and the 100 marines of the Navy-Yard Department had tumbled out of their bunks in the barracks and were scurrying hither and thither in search for the fire.

They searched in vain. The utmost diligence failed to find a spark, and in half an hour the engine and truck people, the marines and the officers of the yard were returning grumbling to their beds, while Shanahan comforted himself with the feeling that it was better to be too careful than to be careless.

A Woman's Plunge from a Window

Annie McCarthy, who lived with her three grown-up sons on the fourth floor of the tenement house at 148 Leonard street, met with a shocking accident this morning, which will probably result in her death.

Shortly after 11 o'clock she started to light

FRED MARSDEN DEAD

The Well-Known Playwright Found Lifeless in His Room.

Apparently He Committed Sulcide Through Ill-Health.

The Chinks in the Room all Stuffed Up and the Gas Turned on at Full Split-File Death Discovered at 10.30 O'Clock This Morning and Capt. Hooker Telegraphs it to Police Bendquarters Hours After.

Frederick Marsden, the playwright, was found dead in his bedroom this morning, at \$18 West One Hundred and Twenty-math street, his home, and appearances lead to the belief that he committed suicide. At 10.30 o'clock he had not yet left his

chamber, and an inmate of the house went to arouse him. The door was locked and no answer came to repeated knocking. The keyhole had been stuffed from the inside. The odor of illuminating gas was vary apparent near the door and gas seemed to be

sacaping from the room through the cravices. The fe nily became a armed and it was de-termined to force the door. Mrs. Marsden sent for John A. Harrington of 252 West One Hundred and Twenty-third street, and George W. Wilton, of 142 West One Hundred and Twenty-fo urth street, and an entrance into the room was effected.

The room was filled with gas, which whistled up through the burner, which was wide open. One of the gentlemen threw open a window, and when the atmosphere had become endurable they looked about the room.

open a window, and when the atmosphere had become endurable they looked about the room.

Mr. Marsden lay dead on the bed. He had died of asphixiation. That his death was intentional was apparent from the fact that the utmost care had been taken to stop up all apertures through which any fresh air might gain access to the room.

After some consultation word was sent to Capt. Hooker, of the West One Hundred and Twenty-sixth street rolles station, and several hours later Capt. Hooker consented to have the news telegraphed to Police Headquariers. Late in the afternoon he sent word to Coroner Nugent that his services were needed at 318 West One Hundred and Twenty-sixth street.

Mr. Marsden's house is of brown-stone and on the south side of One Hundred and Twenty-sixth street, west of Eighth avence. When an Evening World reporter called there this afternoon crape hung on the door. The gentleman who answered the reporter's ring refused to, give any information as to the death of Mr. Marsden, and the policeman, who was in his shirt sleeves in the basement, was equally reticent.

At Capt. Hooker's station the Sergeant said that all he knew was that Mr. Maraden had been found dead in bed in his room, that the gas was turned on, and that the case appeared to be suicide.

Mr. Marsden has been suffering from ill-health for a long time, and it is suspected that his suicide is the result of it. He was forty-five years old and a very successful playwright.
